- Railway Operations Manager
- Other responsible persons from railway undertakings

LANGUAGES

DESCRIPTION

In this seminar, you will learn how to deal with the CSM Regulation (EU) No. 402/2013 and how to implement and apply it in your company's existing processes. You will learn the principles and the stakeholders involved in the application of the CSM and understand the interactions with Directive (EU) 2016/798 (requirements for management of railway safety).

Based on a practical example, we will run a risk management process with you.

SEMINAR CONTENTS
